

The Ralph A Hiller Company was founded in 1948 on one basic philosophy: "Commitment to solving our customers' problems." That commitment today includes market focus, flexibility, and the technical expertise to supply a wide range of quality fluid power products. Further, we excel at the engineering, manufacture, and support of custom-built products to the highest standards.

The company began as a fluid-power products distributor representing many of finest product lines in the country. In 1962 we expanded into the nuclear power industry, building our first valve actuator. Hiller actuators are supplied to industrial, wastewater, mining, oil & gas, and nuclear power markets.

The Ralph A Hiller Company became a wholly-owned subsidiary of Rotork in 2010. As part of the Rotork Group, we provide many Rotork products alongside our own, expanding our focus and our portfolio on a global scale.

In today's global manufacturing market, our vision of excellence keeps pace, allocating the professional and financial resources necessary to continually develop dynamic technological solutions to your problems. The result: state-of-the-art design with unmatched reliability.

With our value-add service, not only can you purchase the products you need, but Hiller can complete the assembly for your application. From initial design through final delivery of the completed assembly, let Hiller work for you. From a workstation to a power unit, our trained technicians will assemble, package and ship your equipment to you complete, saving you both time and money.

Our production team also performs repairs, upgrades and modifications for your application. Our experienced technicians and engineers have the expert skill and knowledge needed to deliver quality equipment that is both cost-efficient and on-time.

Located in Export, just outside of Pittsburgh, Pennsylvania, Hiller's headquarters offer our highly-qualified professional staff a 21st century environment. From the production shop to the engineering offices and the educational training center, our physical plant reflects our leadership role in meeting the complex demands of the marketplace.

Key Capabilities, Products, and Services

- Fluid power products distributor
- OEM safety-related and commercial actuators
- Automation projects – turnkey solutions
- Hydraulic and pneumatic cylinders and power units
- Seals, gaskets, o-rings and seal kits
- Valves, pumps and motors
- Hydraulic hose, tubing and pipe
- Fittings and fasteners
- Engineering, design, technical service and support
- Maintenance and repair
- Quality assurance – ISO9001:2008 certified company

Proud to represent the following product lines

80/20 – The Industrial Erector Set

Modular machine building products

AMERITOO

Stainless steel gas springs and dampers

APEX TOOL GROUP (COOPER/GARDNER-DENVER)

Buckeye, Cleco, DOTCO pneumatic and electric tools

BARKSDALE CONTROL PRODUCTS

Pressure, temperature, and level switches; valves

BEHRINGER

Pipe clamps, ball valves, hydraulic and process filters

CONTINENTAL HYDRAULICS

Hydraulic pumps, valves, power units

DELTROL FLUID PRODUCTS

Flow control, check, needle, and cartridge valves

DORNER CONVEYOR SYSTEMS

Industrial packaging, sanitary conveyor automation systems

EATON – HANSEN

Quick disconnect couplings, quick seal connectors

FABCO-AIR

Pancake air cylinders, linear slides, grippers, rotary actuators

FIRESTONE INDUSTRIAL PRODUCTS

Air bags, springs, Marsh Mellow mounts, grippers, end effectors

ITT – ENIDINE

Shock absorbers, air springs, rate controls, vibration isolation

HASKEL INTERNATIONAL

High-pressure pumps, air amplifiers up to 30,000 PSI

JVL INTERNATIONAL

Integrated servo and stepper motors

KEPNER

Zero leakage check and relief valves

NORGREN

Actuators, filters, regulators, lubricators, FRL units, fittings, valves

- **BUSCHJOST/KIP**

Process valves, valve manifold assemblies, pressure, level switches

- **HERION USA**

Air and hydraulic valves, pressure switches, process valves

- **MOSIER**

NFPA or ISO compliant air cylinders, rodless cylinders, mufflers

NOSHOK

Pressure gauges, transducers, needle valves

NYCOIL

Push-on fittings, tubing, recoil hose

PIAB

Vacuum pumps, suction cups, level compensators, components for vacuum application optimization

PINNACLE SYSTEMS

Light curtains, safety mats, ergonomic safety switches

PROPORTION-AIR

Electro-pneumatic servo control, regulators, volume boosters, pressure controls

ROTORK

Electric, fluid power and process control actuators, gearboxes

- **SHISCHECK**

Electric explosion-proof rotary actuator products

- **REMOTE CONTROL**

Electric, pneumatic and electro-hydraulic valve control systems

- **K-TORK**

High performance pneumatic actuators

- **FAIRCHILD INDUSTRIAL PRODUCTS**

Filters and accessories, pressure regulators, relays, transducers, volume boosters

- **YTC (YOUNG TECH)**

Positioners, boosters, valves, regulators, relays, transmitters

- **SOLDO CONTROLS**

Control accessories for valve automation

- **ROTORK MIDLAND**

Air preparation components, solenoid, poppet, spool valves

- **M & M INTERNATIONAL**

General purpose solenoid valves

SHEFFER

NFPA air and hydraulic cylinders and accessories

SERVI FLUID POWER

Accumulators and accessories, surge arrestors

THOMAS – A Gardner Denver Product

Compressors, vacuum pumps

TOLOMATIC

Electric cylinders, servo-driven actuators, band cylinders, linear slides, guided electric and roller screw actuators
